Les Charrières Country Hotel

Les Charrières Country Hotel is one of the friendliest and best value for money hotels in Jersey. It is set in beautiful countryside at the top of St Peters Valley, in the peaceful heart of the island of Jersey.

The hotel is conveniently located close to Jersey airport, and ideally situated for visiting many of the island's major attractions. These include Jersey's main golf clubs, Jersey's most popular and beautiful beaches, and only 4½ miles from St Helier.

The hotel's restaurant uses Jersey produce whenever possible and also caters well for children and vegetarians. Each day the restaurant offers a wide selection of fresh fish dishes as well as the extensive a la carte menu.

Les Charrières Country Hotel has an indoor leisure complex and function suite, which is ideally suited for those visitors wishing to get married in Jersey. Also the hotel is excellent for businesses wanting good conference and banqueting facilities with ample car parking spaces.

When most of Jersey hotels close during the winter months, Les Charrières Country Hotel remains open all through the year. This includes Christmas and the New Year period when the hotel puts together festive family packages. The hotel's staff have a reputation for being friendly, welcoming and always willing to help.

Easy access with HD1

As part of its ongoing efforts to make the ferry travel experience easier and more enjoyable for its less mobile passengers, HD Ferries has been delighted to accept a new lightweight wheelchair kindly donated by Technicare in Jersey.

This modern wheelchair will be kept on board the fast ferry HD1 and will make travelling easier for passengers who may need assistance from the car deck to the ship's passenger accommodation. On Board Services Duty Manager Patricia said "This lightweight wheelchair will be invaluable in helping passengers from their cars to the ship's lift and on to their seats, and we hope that we will also save passengers the trouble of off-loading their own wheelchairs from their cars". Martin J. Greenwood the Sales Manager of Technicare went on to say that "Technicare supply a wide range of healthcare and mobility products throughout the Channel Islands and that we were very pleased to work closely with HD Ferries in assisting them with their efforts to provide a trouble free travel experience for their passengers".

The HD1 has a ramp leading to the lift and the passenger accommodation is all on one deck with spacious aisles between the seats, affording easy access.
