Explore Jersey on foot

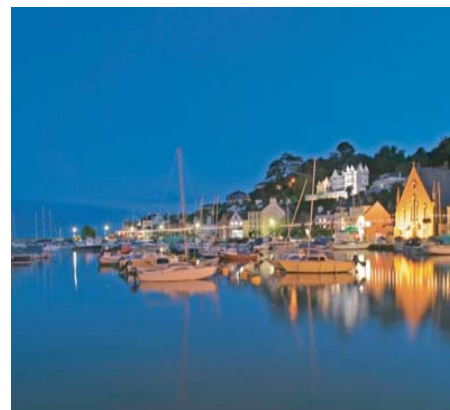

Jersey benefits from being the most southerly island in the British Isles and surrounded by some of the cleanest beaches in Europe. The coastal scenery is constantly changing as some of the highest tides in the world wash over the beaches twice a day. With such variety and unspoilt countryside walking is one of the best ways to discover the "Real Jersey".

Jersey Tourism offer guided walks several times a week, again varying in scenery and distance and with it's rich cultural history and beautiful flora, you'll be pleasantly surprised how much Jersey has to offer.

The Spring (12-19 May) and the Autumn (15-22 Sept) Walking weeks offer a wonderful array of guided walks ranging from "Round the Island" to the truly amazing "Moon Walks". The Moon Walks can only be undertaken with a guide at certain times of the year when the tide recedes far enough. Stories ranging from the French invasion over the rocks in mid winter to when the land was joined to Continental Europe and the breeding grounds of so many fish make these walks some of the most fascinating you will ever experience.

The Undercliff Guest House, situated literally metres from the coastal path that runs right across the north of the island, is the ideal base for the person who just wants to get away from it all, or the more serious walker who may want to walk all around Jersey. The Undercliff has been chosen as the only member in the Channel Islands to belong to the British Walking Federation and the IVV, the Internationaler Volkssportverband. An in depth knowledge and 10 different walking routes (many starting and finishing at Undercliff) are on offer. With walks like the Bonne Nuit Blister, 22km down to The Corbiere Cobble at 12 km there is something for everyone. You can download route descriptions at www.undercliffjersey.com

In the countryside yet only 200m from the sea, with a large garden and heated swimming pool (May - Sept), Undercliff really does have a unique location. Mr & Mrs Richard Huson have run the Undercliff for over 35 years, attaining a four star rating. Dinners, cooked to a high standard are served from mid May, Monday - Thursday evenings.
