

## Guernsey's Healthy Environment

Guernsey's environment will reinvigorate your senses: savour the scent of cool, wooded valleys, or the sight of a sunset, mirrored in the Atlantic Ocean. Soak up the sound of waves lapping on old granite landing steps, or the tingle of salt on your skin after a long day on the beach. With their age-old recipe of clean sea, fresh air and clear light, the islands are the ultimate, natural antidote to stress.

Over 100 miles of coastline is the setting for sandy beaches and dunes, secret coves and rock pools, rugged harbours and endless, beautiful cliff walks. Inland, each island has a country heart that beats to the rhythm of the seasons. Sleepy lanes, private gardens, nature reserves and migrating birds are just some of the natural treasures waiting to be discovered....

## The Guernsey Tapestry

Telling the story of the previous 1000 years of local history in only half an hour sounds like an impossible task, but The Bailiwick of Guernsey Millennium Tapestry does just that.

Each of the ten panels of embroidered canvas work depicts 100 years of local history, displayed in a purpose built Gallery with accompanying audio guide. Described by one visitor as an 'Excellent guide to the history of Guernsey and a remarkable Tapestry', it is an essential place to visit as it will answer your questions about the history and culture of the Island - even local people discover facts they did not know. Of course you may find yourself spending longer than that half an hour!

*You'll be amazed what we can get away with*
