The Howe-Davies family are very pleased to invite you onboard our HD1 ferry, and we thank you for choosing to sail with HD Ferries today.

Our first year is now behind us, and with all the experience we learnt from 2007 (good and bad!) we are expecting a completely different year in 2008. We are now back on four engines and the HD1 is once again the fastest ferry in the Channel Islands with a service speed of 40-45 knots (approximately 50mph).

HD Ferries is very proud to boast that it has made a dramatic impact in its first year. We have now broken the monopoly in the Channel Islands and grown the overall travelling market on all routes by 20% in 2007. We of course expect to do even better in 2008!

As I have said publicly many times, it is only thanks to your support that HD Ferries is here to stay.

We have a "Keep Fares Low" BLOG ([www.hdferries.co.uk/keepfareslow.asp](http://www.hdferries.co.uk/keepfareslow.asp)) and have also printed "I support low fares" car stickers which we give out for free at check-in to all vehicle passengers, and to any supporters who would like one. Hopefully you picked up your free car sticker today and are displaying it proudly.

Our regular travellers from last year will have probably noticed the change in the headrest covers from green to red. HD Ferries are very proud to now be partnered with Airtel-Vodafone, our sponsor for all the HD1's headrests. The Islands' newest ferry operation combines well with the Islands' newest mobile telecommunications company.

Finally, please keep sending any thoughts or ideas on our service to me at [chris@hdferries.com](mailto:chris@hdferries.com). I love to read your feedback which has already helped us to improve disabled facilities and introduce new ranges in our duty free shop, to give two examples.

Thank you for your continued support of HD Ferries.

Chris Howe-Davies  
HD Ferries CEO

La famille Howe-Davies est heureuse de vous recevoir à bord de notre HD1 ferry et vous remercie d'avoir choisi HD Ferries aujourd'hui.

Notre première année est maintenant derrière nous et avec toute l'expérience (bonne ou mauvaise!) que nous avons acquise en 2007 nous espérons une année 2008 complètement différente. Nous sommes de retour avec nos 4 moteurs et le HD1, qui est une fois de plus le ferry le plus rapide des îles Anglo-Normandes avec une vitesse de 40-45 Nœuds (environ 80km/h).

HD Ferries est fière de l'impact créé au long de sa première année. Nous avons brisé le monopole exercé dans les îles Anglo-Normandes et augmenté le marché de 20% sur toutes les routes en 2007. Nous entendons faire encore mieux en 2008!

Comme j'ai pu si souvent l'exprimer publiquement, c'est grâce à votre soutien que HD Ferries est ici pour durer.

nous avons un blog "garder les prix bas" ([www.hdferries.co.uk/keepfareslow.asp](http://www.hdferries.co.uk/keepfareslow.asp)) et aussi créé des autocollants "Je soutiens les prix bas" que nous distribuons gratuitement à l'accueil à tous les passagers véhiculés et à toute personne en désirant un. En espérant que vous ayez pris le votre aujourd'hui.

Nos voyageurs réguliers ont probablement remarqué le remplacement des repose-têtes anciennement verts maintenant rouges. HD Ferries est fière d'être en association avec Vodafone-Airtel, sponsor des repose-têtes de HD1. La nouvelle compagnie maritime s'alliant à la plus récente des compagnies de télécommunications.

N'hésitez pas à me contacter par courriel à [chris@hdferries.com](mailto:chris@hdferries.com) si vous voulez partager votre opinion ou vos idées sur notre service. Pour ne vous donner que deux exemples, vos commentaires nous ont aidés à améliorer l'accès aux handicapés ainsi qu'à proposer de nouveaux produits dans notre magasin duty free.

Merci pour votre soutien permanent à HD Ferries.
